# Flameproof Alarm System for Pressure, Flow & Level Switches

**High / Low Intrinsically safe Level switch**

**Flameproof Buzzer with Flasher**

**High / Low Intrinsically safe Pressure switch**

**High / Low Intrinsically safe Flow Switch**

**Flameproof Enclsoure**

**Flameproof Buzzer with Flasher**

**Ultra High / Low Intrinsically safe Pressure switch**

**High / Low Intrinsically safe Differential Pressure switch**
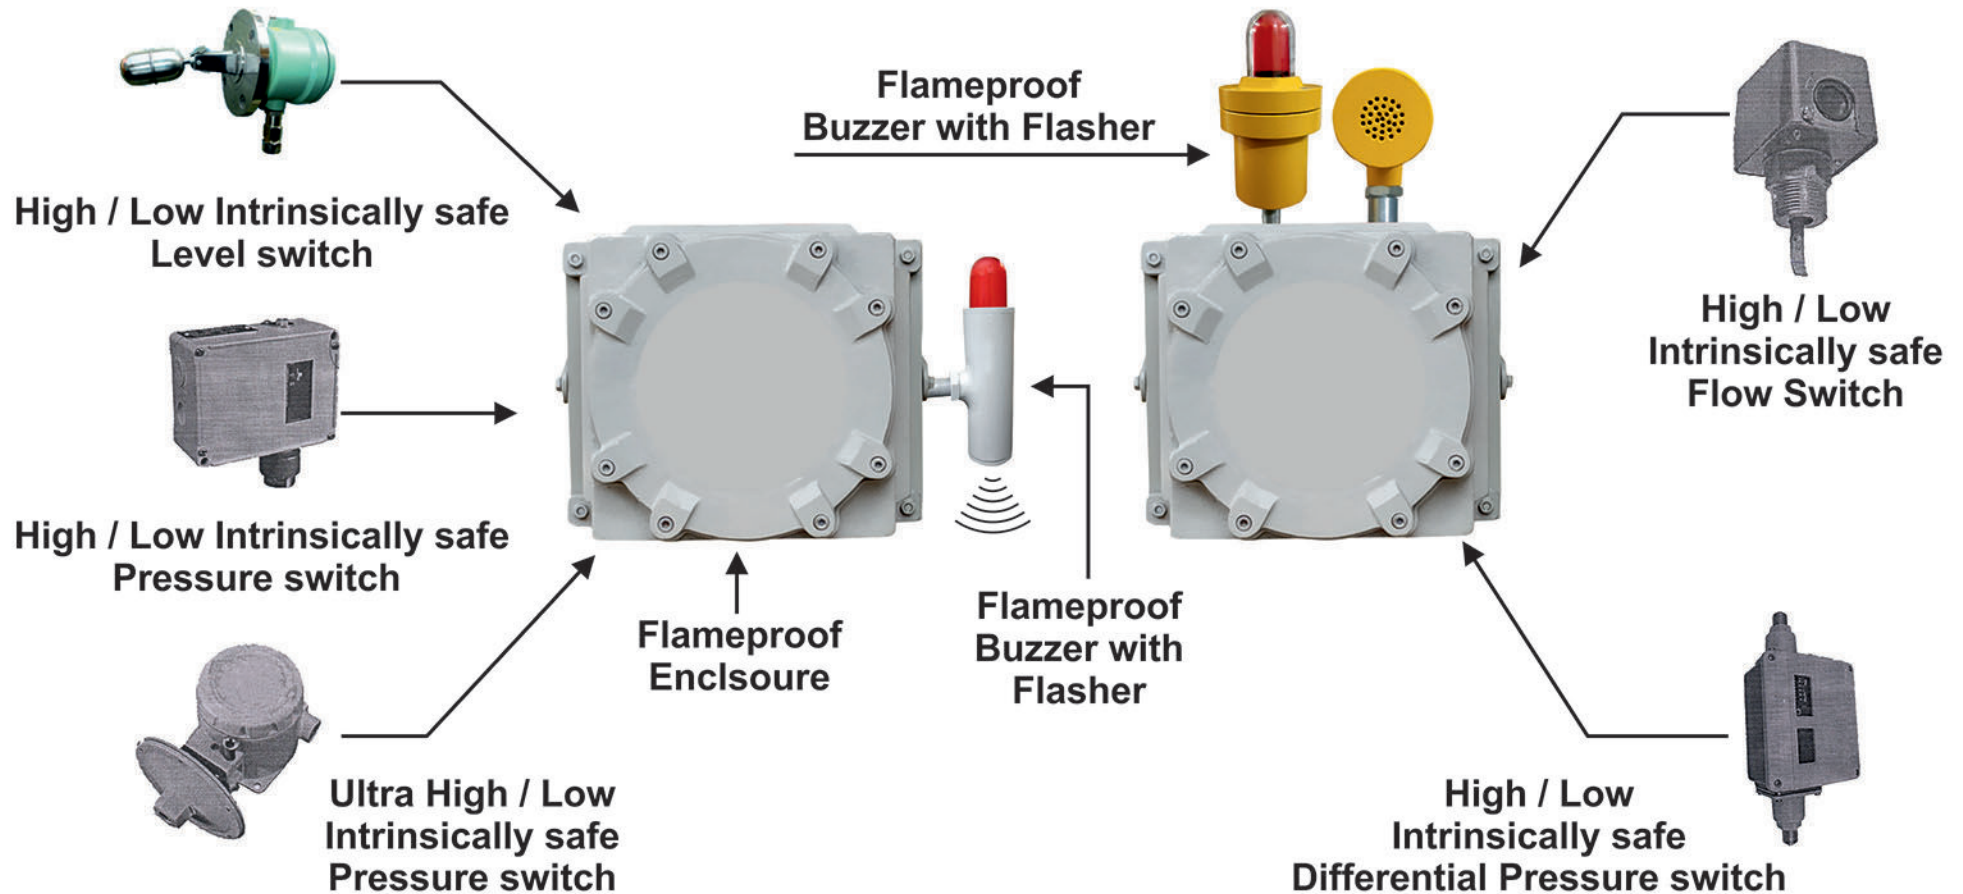

## Salient Features

• Easy solution for controlling Temperature, Pressure, Flow & Level switches used in Hazardous area IIA, IIB & IIC
.
• Existing process instruments / Non flameproof process instruments having potential free contact can be used in this system

• Works on a combination of intrinsically safe & flameproof technology.
